TYLENOL Motrin

EDUCATION ON CALL

Fever Tracker

There are many factors that indicate the severity of a fever, such as age, duration, and how often a child has one. Use this chart to keep track of your child's fever history to inform your conversations with your pediatrician.

Complete a line every time you take your child's temperature or administer fever-reducing medication. To help you remember, store this paper with your child's thermometer and medicine bottle.

Child's name: _____ **Age:** _____

Method (circle one): RECTAL UNDERARM FOREHEAD EAR ORAL

Ask your pediatrician to recommend the best method for taking your child's temperature.

Date	Time	Temperature	Medicine	Dosage	Symptoms

Keep in mind that you know your child best. If you feel that something is wrong, always follow your instinct and call the doctor.

For aches, pain, and fever, **TYLENOL**® and **MOTRIN**® are

Always On Call
